

WHERE DETAIL MAKES THE DIFFERENCE

THE LATEST ANNOUNCEMENTS FROM INTERMOUNTAIN RAILWAY COMPANY

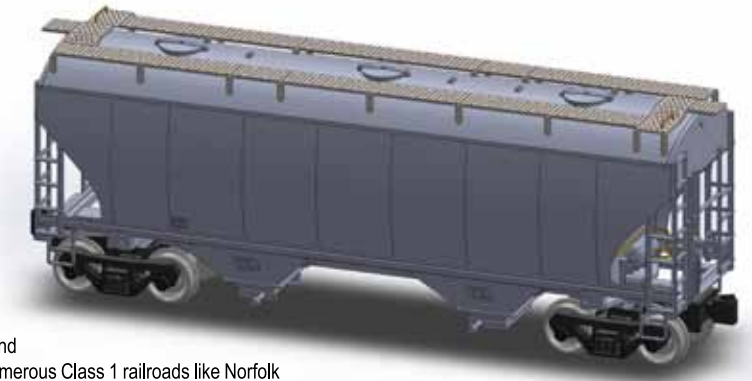

HQ Scale UNION PACIFIC SD40N LOCOMOTIVE

Union Pacific SD40N locomotives are the product of a modernization program begun by the railroad to upgrade the companies aging fleet of SD40-2 locomotives, some dating back to 1973. The program to convert SD40-2's to SD40N's began in 2011 and is ongoing. The rebuild consists of replacing primary components such as the main generator, traction motors, and air brake equipment as well as rewiring the electrical cabinet. Also included are refurbished cabs, installation of air conditioning, Positive Train Control capability, and the installation of a remanufactured 645E engine. These replacement engines are equipped with a retrofit kit supplied by EMD to bring the locomotive up to Tier 0+ emission standards required by federal mandate on all remanufactured locomotives initially constructed between 1973 and 1992. The N designation is symbolic of Union Pacific using NEXSYS control system from ZTR Control Systems to replace the older Dash 2 system. This improved wheel slip system increases adhesion thereby allowing the locomotive to produce a higher tractive effort. This designation has also been used on MP15's and GP15's featuring the ZTR system. Our model is being offered in six road numbers and will feature either standard fans or Q-fans where appropriate. These new locomotives would make a fine addition to any modern layout.

3281 COVERED HOPPER CAR

The 3281 covered hopper is designed for carrying high density bulk materials. The most commonly carried commodities include sand and cement. These cars were first constructed in the mid 2000's and many thousands of them have been brought into service since then. Current owners of this car include numerous Class 1 railroads like Norfolk Southern and CSX to short lines like Winchester & Western. Many more of these car are operated by a large array of private owners and leasing companies including Cemex, Trinity Industries Leasing and General American.

The InterMountain N scale model of the Trinity 3281 covered hopper will feature all new tooling for the body and roof. The walkway will be etched metal. Separate brake details and wire air lines will be incorporated at the B end of the car. The cars will also include metal wheel sets and truck mounted MicroTrains compatible couplers. Each car will be finished with accurate painting and laser sharp lettering with multiple road numbers in each release. The first ten road names for this commonly seen freight car have been announced, many more will follow.

Welcome to the Rocky Mountain Train Show

From the Show Director

2016 marks our 6th year of sharing our love of model railroading with the public at the Denver Mart. The show has truly become a national event, bringing in almost 11,000 attendees last year and an expanded presence of national manufacturers. From an attendees' perspective, the biggest change this show is probably our agreement with the Mart to once again provide free parking.

The future of the hobby requires us to work tirelessly to create new hobbyists, most of whom are youngsters and families that have had little exposure to the hobby previously. Our show is a fantastic opportunity to show all aspects of the hobby and encourage their participation.

We try to accomplish this by offering a slate of kids activities, from hands-on play to building a layout over the course of the show. Additionally, we give away a train set every hour.

Please check out our how-to clinics to learn new modeling skills; the Company Store to bring home a reminder of the show; the fabulous operating layouts for inspiration and the chance to join one of these great organizations; the manufacturer booths to see the latest in modeling, and, of course, our vendors to take some treasures home.

If you're here with children, make sure to visit the kid's corner, the folks from Youth in Model Railroading and the Boy Scouts. If you're a scout, you can earn the Railroading Merit Badge on site. Maybe, you'll even win a train set to get started!

The show is presented through the work of a large number of volunteers. I thank these folks for their herculean efforts. If you have an interest in helping us, talk with one of our volunteers at the Information Desk.

Have fun!

Jim Marski

Rocky Mountain Train Show Mission Statement

The mission of the Rocky Mountain Train Show is to promote and educate the public about the hobby of model railroading by providing information and inspiration to new and current hobbyists.

The Rocky Mountain Train Show is sponsored by the Rocky Mountain Division of the Train Collectors Association. The TCA was formed in Pennsylvania in 1954 and now serves over 25,000 members across the country.

The Rocky Mountain Division covers the states of Colorado, Utah, Wyoming, Montana and Nebraska. The division offers special first-time deals for new members.

BACHMANN INTRODUCES E-Z APP™ TOUCH-SCREEN TRAIN CONTROL

Enjoy wireless touch-screen control of the HO scale E-Z App™-equipped *Blue Lightning* and *Blue Star* train sets through your *Bluetooth®* 4- supported Apple smart device. Now you can have speed, direction, lighting, and sound control at your fingertips using your Apple® iPhone®, iPad®, or iOS device and the FREE E-Z App™ download. These ready-to-run train sets include an E-Z App™-equipped locomotive (diesel in *Blue Lightning*; steam in *Blue Star*), 3 cars, oval of snap-fit nickel silver E-Z Track®, and power pack. Visit us at D25/26 and D31/32 to experience wireless touch-screen train control!

Features of E-Z App™ Touch-Screen Train Control include:

- wireless control with any *Bluetooth®* 4-supported iPhone®, iPad®, or iOS device (includes iPhone® 4s, 5, 5c, 5s, 6, and 6 Plus; iPad Air® and iPad mini™, 3rd and 4th generations; iPad Pro®; and iPod touch® 5 or newer)
- operates from up to 100 feet away with *Bluetooth®* Smart technology
- realistic, dynamic engine sound broadcast through your *Bluetooth®* 4-supported smart device
- requires 16 volt DC or DCC track power for operation
- ready to launch and use instantly after downloading the FREE Bachmann E-Z App™ from the Apple App Store™
- no configuration or additional equipment required

Blue Lightning Train Set with E-Z App™ Train Control
Item No. 01501 • MSRP \$299.00 • SHIPPING NOW!

Blue Star Train Set with E-Z App™ Train Control
Item No. 01502 • Price to be announced • COMING IN 2016

Featured Attractions

Build-A-Layout Program Expo 1 Aisle J

The show's Build-A-Layout program teaches young hobbyists the skills necessary to build their own train layout. Over the course of the show, anyone under 18 can help with the construction of an O-gauge train layout, learning track laying, wiring and scenery making.

Anyone participating in the program has their name put into a drawing to win the completed layout and a brand new train set provided by Bachmann Trains.

Find the Build-A-Layout project in Expo 1 Aisle J. Build-A-Layout is sponsored by Bachmann Trains and Woodland Scenics.

New Product Announcement

The folks at North American Railcar will be announcing the newest item in their line of quality rolling stock at the show!

Visit them at Booth E27 or attend their clinic on Saturday or Sunday to get even more detail.

Hourly Train Set Drawing

Our friends at Bachmann Trains have partnered with the Rocky Mountain Train Show to help us bring new families into the hobby.

We are giving away a new train set every hour of the show. Stop by Booths D25/26 - D31/32 to thank them for supporting the hobby.

Hourly Door Prizes

Every hour on the hour we give away a pile of door prizes in addition to our train sets. These prizes range from Thomas toys to quality scale trains.

While you're on the show floor, say thanks to the following folks for supporting the show: Accurail, Amtrak, Bachmann Trains, Cog Railway, Colorado Model Railroad Museum, Cumbres & Toltec Scenic Railroad, Durango & Silverton, ExactRail, Forney Museum of Transportation, InterMountain Railway, Kadec, Kalmbach Publishing, Leadville, Colorado & Southern, LGB/Marklin, MicroTrains, Model Rectifier, Rapido Trains, Rons Books, San Juan Car Co., ScaleTrains.com, Scenic Express, Walther's, Weathering Solutions and Woodland Scenics.

Photo courtesy Amtrak

Amtrak Grand Prize

Our Grand Prize to be given away Sunday afternoon is a train trip to Glenwood Springs courtesy of Amtrak.

Included is an overnight stay at the Courtyard by Marriott, a gift certificate to the Hotel Denver, ski tickets to Sunlight Ski Area, hot springs pool passes from Glenwood Hot Springs & Lodge and soak tickets from Iron Mountain Hot Springs.

Train Station Challenge

The show's Train Station Challenge is a model railroad treasure hunt! Each family receives a map of the show upon entry designating eight locations as Train Stations. Your goal is to visit all eight stations and have your map stamped at each one. Turn your completed map in at the info desk for a chance to win a fabulous outdoor train set donated by our friends at Marklin/LGB.

marklin®

New Layouts

We have a couple of great new displays at the show!

First, celebrating the real thing's 60th anniversary, is an absolutely fabulous 8 x 20 animated layout of DISNEYLAND. This one is worth coming to show just to see it! As it's a one-time visitor, don't miss seeing it in the northwest corner of Expo 2. It is also a great companion to our Disneyland Shuco Monorail layout.

The next visiting layout is an award-winning 10 x 40 HO_{n3} layout brought to the show by the New Mexico Narrow Gauge Modular Club. You'll find this one in the southwest corner of Expo 3.

The last new layout for the show is the 12 x 40 Slick-X modular layout. Make sure you visit their layout in our new layout space on track L, an expansion to the east of our previous layout space.

*We have the latest releases
and hard-to-find, out-of-production items*

Rocky Mountain Train Show History

The Rocky Mountain Train Show is held twice a year in Denver, Colorado- the first week in March and the second week in December. At 120,000 square feet and March attendance in the 11,000 range, it is the largest show west of the Mississippi.

The roots of the show began 39 years ago when the Rocky Mountain Division of the Train Collectors Association announced their first “Holiday Meet” to be held Thanksgiving weekend, 1976. The Rocky Mountain Division was the first TCA Division to welcome the public to our shows in the early 1980s.

The show grew to attendance of approximately 2,500, and then, as with many shows, began a decline that saw attendance shrink to approximately 1,200.

In 2009, the club formed a committee to look at solutions to revitalize the show. The decision was to “bet the farm” on moving the show to a world class exhibition facility, The Denver Mart.

To back up this new show, it was determined that we would need to invest in an extensive advertising program. As the show started to grow, we reinvested all profits in additional advertising, which brought additional attendance gains.

With stellar manufacturer attendance including Bachmann, Bar Mills, Blackstone Models, Broadway Limited, Daylight Sales,

Clinics and presentations highlight this year’s show

We are proud to have our good friend, Ed Dickens, Union Pacific’s Senior Manager- Heritage Operations, at the show on Saturday morning to give a presentation

Featured Layout

Colorado & Great Western

The HO-scale Colorado & Great Western, located at Expo 3 South, is a Rocky Mountain Train Show staple.

Featured in the July/August 2015 issue of *Cowcatcher Magazine*, the layout has great continuity from one module to the next.

Members of the Denver-area layout strive to model the amalgamation of “anywhere” Colorado through finely weathered towns and scenery.

Photos courtesy Cowcatcher Magazine
